# DAILY NEVADA STATE JOURNAL

WASHOE COUNTY OFFICIAL PRESS

G. C. POWNING, EDITOR AND PROPRIETOR

TUESDAY, MARCH 21, 1876.

For President of the United States:

**B. H. BRISTOW,**

SUBJECT TO THE DECISION OF THE

REPUBLICAN NATIONAL CONVENTION

## THE NEXT STATE.

Many persons are not familiar with the circumstances which justify New Mexico in becoming a State of the Union. The debate in Congress on the proposition to enable the people of that Territory to form a Constitution and State Government, and for its admission into the Union on an equal footing with the original States is replete with interesting information. It was shown that the area of New Mexico is 121,201 square miles, equal to 77,000,000 acres, larger than that of most States in the Union. The population is a trifle over 100,000 of whom 40,000 are Anglo-Saxons. The Territory has ample resources to conduct successfully a State government. It began to be settled more than two hundred years ago, and it contains a number of men of large wealth. It is comparatively out of debt, owing but about \$75,000. Its counties and towns are free from subsidies to railway companies and other corporations. Its valleys are fertile, producing by irrigation abundantly all the cereals, as well as vegetables and the grape. It is unusually well adapted to wheat. Its grazing capacity is unsurpassed. The grass is of superior quality, the climate suited to stock raising on a large scale, and water is abundant. Her resources from the sale of wool and hides, and from the cattle shipped, added to those sold to the army and for the Indians, aggregate about \$4,000,000 per annum, and the annual yield of gold, silver, and copper is about \$2,000,000. Besides these resources, New Mexico has inexhaustible fields of coal and iron. New Mexico is fully alive to the priceless blessing of education, and as evidence thereof the Legislature in 1871 passed an act establishing a common-school system, setting apart to that use the poll-tax and one-fourth of all other taxes. Several railways partially constructed point toward New Mexico. Should those roads, or any of them, be built, the effect on the copper, silver and gold interest will at once be felt, and a new impetus given to immigration and the productive industries. In view of all the facts—of the resources of New Mexico present and prospective; of the peaceful, law-abiding character of its citizens; of its possession of a population ample in number to conduct a State government, and of its long probation under a territorial government—New Mexico has good reason for her prayer to be admitted as a State of the Union; the time has come when the United States can well be freed of the burden and heavy expense of a territorial government over that people, and will be fully justified in admitting New Mexico as a State when it presents a constitution republican in form and consistent with the Constitution of the United States.

## STATE TAXATION OF RAILROAD LANDS.

The House of Representatives has done its duty to the people in passing a bill to subject the large bodies of lands granted to the several railroad corporations in aid of the construction of their roads to State taxation. During the debate it was truly said that these separate railroad companies hold fifty millions of acres of land without paying taxes thereon. From the moment the settler gets possession of his land he commences to pay taxes for all purposes, school, local and general. At the same time adjoining land held by a railroad company is exempted from taxation. The railroad companies have, by sheltering themselves under a clause of the law, succeeded in evading taxation. The purpose of the bill just passed by the House is to compel these companies to pay taxes upon the land held by them just as other people pay taxes. We of Nevada are

cognizant of the manner in which this monstrous fraud is perpetrated. Should a poor man purchase from the Central Pacific Railroad Company a section or a half a section of land, they would obtain a patent for that section or half section, file it in the office of the company, record it, and then convey it to him. From that moment he becomes a taxpayer, they escape scot free, and wait for the next man to come along. The company hold its lands for every conceivable purpose except taxation. They hold them for mortgage; they hold them for sale. Their lands in this State are worth millions of dollars. It is but justice to put the company on a similar footing with the struggling settler, who has to deprive himself of the very necessities of life to meet the taxation which inexorably comes around with every recurring year. As the case now stands the company seems to be above and higher than the law. For years this gross injustice has been tolerated. Let the Senate of the United States rise equal to the occasion and forever put an end to the rule that now prevails, and which neither justice nor propriety sanction.

## CHINESE IMMIGRATION.

It is the prevailing opinion that Chinese immigration to this Coast should be discouraged as much as possible. We have too many of that class already here. From a San Francisco paper we learn that there is a good prospect for a large influx of the same kind during this year, and we are likely to be overrun with them. The steamer last week brought over 1,000, and an equally large number may be expected by each regular steamer until the first of July. In addition, three extra steamers have been chartered from Hongkong direct, two of which are already on their way, one of them being due within a week or ten days. The four or five sail vessels on the way and to come will bring a fair number. The arrivals this year will probably be up to the average of the last three years, and may possibly reach 20,000. Up to March 1st 2,500 had arrived, against less than 400 departures. The arrivals this month will exceed 3,000, and next month will be at least 4,500, which will give us 10,000 to May 1st, and they will probably average 1,000 to 1,500 per month for the remainder of the year.

ITS PREFERENCE.—The *Enterprise* declares its preference for either Secretary Bristow or Hartman, of Pennsylvania, for the Republican Presidential nominee, giving Bristow as first choice. We think that by the time the National Convention meets the general sentiment of all good Republicans will be for Bristow. Amid the general slough of fraud and corruption clustering around the National Capital not a stain has besmudged his skirts. He is the right kind of a man for our next President.

## NEW MAIL ROUTES.

The bill establishing new post roads in the United States has passed the House. It embraces the following:

## Hotel Life in the City of Mexico.

Everything in the way of living is cheap in Mexico. Of course, prices range higher in the capital than elsewhere, but even there the prices are lower than with us. The hotels, for instance, furnish excellent rooms at from \$20 to \$50 a month. At the Hotel Iturbide the rooms are very large, and usually divided by curtains so as to make a parlor and bedroom. The arrangement is a pleasant one, and preferable to having two rooms. For thirty dollars a month you can procure one of these apartments, handsomely furnished and efficiently attended. The scheme of the hotel extends no further. Your bath and your meals are outside affairs. On the ground floor of the Hotel Iturbide is an excellent French restaurant and a very good bath-house. These are separate establishments. The price of the bath is two reals—twenty-five cents—and at the restaurant two persons can contract for meals at \$7.50 each per week. Of course there are other restaurants, and of one—the Grand Tivoli—I can safely speak in terms of unbounded praise. It is arranged as a park, with lovely grounds, fountains, streams, and flowers in profusion.

In the city, dining-places are scattered about here and there: Chinese pagodas, Swiss chalets, French cottages in miniature—you choose the retreat which pleases you most. It is here that you find the great tree on one of whose branches is a pretty little cabin, to which you ascend by a spiral stairway, if you prefer dining so far from mother earth. I believe it will be conceded by all who have partaken of the menu of the Grand Tivoli that a better cooked, better served, and more elegantly appointed dinner could hardly be found anywhere in the world. The cooks are of the finest Paris schools, the wine genuine, and the accessories simply fascinating. —*New Orleans Picayune.*

## BILL TO PREVENT STRAW BIDS.

The House Committee on Postoffices and Post-roads has authorized Congressman Luttrell to report for passage a bill designed to prevent a straw bidding, the main feature of which are those: It provides that in cases of failure of bidders or contractor, the Postmaster-General shall not be obliged to run up the list of bidders until he finds some one able and willing to perform the service, but after giving the second lowest bidder the preference, if this bid is not considered too high, the Department may offer the contract to any outside party at a price not exceeding the next to the lowest bid on the list. The bill will also provide that no bonds shall be accepted which do not explicitly embody satisfactory answers to the various prescribed interrogatories relating to location, value and freedom from incumbrances of the real estate alleged to be owned by the bondsmen.

BELLE BOYD, who during the civil war gained reputation as a Union spy, is living a retired and quiet life in St. Louis. Since the war she has been married, and is now the mother of a family. A number of impostors, who assumed her name, are still traveling in various parts of the country.

THE annual meeting of the Consolidated Poe takes place on Friday.

## UNJUST DISCRIMINATION.

In the published argument of Mr. Stanford before the Committee on Fares and Freight we find the following:

"Wherein is the struggling county of Lassen, so eager for connection with Reno or vicinity, interested in support of this bill, when a similar accident of length (75 miles about) is made to weigh against all of the local causes which would for years go to make charges justifiably high, and all inducement to build such a road swept aside, by such maxima as from 4 cents to 17-10 cents per ton per mile for the entire range of all classes of freight ever hauled fifty miles and over?"

In answer to the above question we would say that we have no particular interest in the Archer bill simply from the fact that we, in this remote district, can reap no special benefit from it and we will be the subjects of still greater discrimination in consequence of its passage. But the question so ingeniously proposed by the Ex-Governor would lead one not cognizant with the facts to believe that we get our freight into this county much cheaper by the Central Pacific railroad than we could do if there were no railroad to Reno, which is not the case. Freight can be brought from San Francisco to Oroville or Chico, and thence by freight teams to Susanville at a cheaper rate than we get them by rail to Reno and thence to this place by teams. The great call however for freight here occurs in early Spring and late in the Fall when we dare not risk it in the mountains between this place and the Sacramento valley. Hence we are compelled to receive most of our freight via railroad to Reno. But while he was expressing so great a sympathy for "struggling Lassen" what reason could he assign for charging us a greater freight upon our goods to Reno than others for the same class of freight to Winnemucca nearly two hundred miles farther on his route? We not unfrequently find our goods damaged by the carelessness and recklessness of the employees of that railroad, and when we ask for just and legal damage, even though the shipper has receipts for the same received in good order with no special release mentioned, we are treated with silent contempt, that corporation no doubt thinking truly enough that we will submit to the loss rather than enter into a suit at law with an institution that would force us to such a measure. "Struggling Lassen" is forced to submit to these and many other impositions from that corporation which are not a whit better than highway robbery, and yet they ask us to keep our hands off of anything that may have a tendency to force them down to justice. We expect to reap no benefit from the Archer bill, but we think that a man having the brains that Gov. Stanford is credited with having is hard pushed for something to say when he holds us up as an example of alleviated suffering from high rates of fare and freight. —*Lassen Advocate.*

A GOOD THING.—Senator Booth presented to the Senate a few days ago a joint resolution of the Legislature of California, in favor of the establishment of a mail route from the town of Susanville, by the way of Horse Lake Valley and the south fork of Pitt River, and Dorrie's Bridge, and Davis Creek, to Willow Ranch, in the State of California; which was referred to the Committee on Post-Offices and Post-Roads. That is just what we have been advocating lately.
